New Disney Channel movie set for October 2015

Los Descendientes: Una franquicia para adolescentes sin precedentes que introduce un nuevo universo Disney presentando a personajes clásicos de Disney re-imaginados para unas niñas adolescentes contemporáneas.

The Descendants: An unprecedented franchise for teenagers that introduces a new Disney universe, presenting classic Disney characters re-imagined for today's teenage girls.

▶ NOTICIA ◀

“Descendants” es una nueva comedia, con aventuras contemporáneas de acción real que se nutre de los personajes míticos de Disney, principalmente de sus villanos más malvados. Introducido por sus progenitores es una moderna generación de adolescentes que cuestionan la maldad que siempre ha habitado en ellos.

En el idílico reino actual, el hijo adolescente y caritativo del Rey y la Reina está listo para coger el trono. Su primera misión: ofrecer una oportunidad a los descendientes problemáticos de Cruella de Vil, Maléfica, la Reina Malvada y Jafar que han sido encarcelados en la isla prohibida con otros villanos, malvadas madrastras y hermanastras. Estos descendientes villanos podrán entrar en el reino para ir a la escuela junto con los descendientes de los héroes de Disney, incluyendo a la Bella Durmiente, el Hada Madrina, Rapunzel y Mulán.

Sin embargo, los adolescentes malvados se encontrarán con un dilema. ¿Deberían seguir los pasos de sus padres y ayudar a todos los villanos a recuperar el poder o acerrarse a su bondad innata y salvar el reino?

The “Descendants” is a new comedy, following the action-filled adventures based on iconic Disney characters, mainly its most evil villains. Following in the footsteps of their parents comes a new generation of teenagers who question the evilness that has always inhabited them.

Set in an idyllic kingdom, the King and Queen’s benevolent teenage son is ready to inherit the throne. His first mission: to offer a second chance to the problematic descendants of Cruella de Vil, Maleficent, the Evil Queen and Jafar, all of whom have been imprisoned on a forbidden island alongside other villains, evil stepmothers and step-sisters. The descendants of these villains are able to enter the kingdom to attend school with the descendants of Disney heroes, including Sleeping Beauty, the Fairy Godmother, Rapunzel and Mulan.

¿Te interesa estar al día en retail? Venimos recopilando todas las tendencias en este ámbito y este es el resultado. ¡Te asombrarán las conclusiones!

Are you interested in being up to date about retail? We have been working to compile all the trends in this area and this is the result. The results will shock you!

EXPERIENCIA!

► ARTÍCULO ◀

Para entender la clave del éxito en retail, antes deberemos analizar las experiencias de compra de nuestros consumidores desde la esencia más básica de todas: los sentidos. Del mismo modo, será vital tener un primer contacto y análisis de las etapas y procesos que se realizan cuando un consumidor va a una tienda y compra.

Nuestra misión responde a una pregunta: ¿cómo convertir nuestra tienda y adaptarla a la “tienda del futuro”?

To understand the key to success in retail, we should first analyse our consumer's shopping experiences from the essence of the most basic experience of them all: the senses. Likewise, it is fundamental to familiarise yourself with and analyse the stages and processes that take place when a consumer goes to a store to shop.

Our mission is in response to a question: how do we transform and adapt our store into the “store of the future”?

DATOS QUE TE SORPRENDERÁN:

- El e-commerce se ha duplicado en los últimos cinco años, convirtiéndose en una herramienta y una auténtica oportunidad.
- Los clientes lo quieren todo y lo desean ahora mismo. Esto es un punto a nuestro favor, ya que se aprovecha la compra por impulso que se realiza en el establecimiento: “Lo tengo en la mano, lo compro”.
- El subconsciente en el cerebro humano ocupa un escalofriante 95%, dejando el 5% restante para el lado consciente. Por este motivo, las empresas retail están en la obligación de crear experiencias que despierten los sentidos para estimular la mente de los compradores y que nuestras comunicaciones se introduzcan en este lado subconsciente.
- Nos encontramos en el momento idóneo para aumentar nuestro interés en ofrecer mejores experiencias a los clientes ya que apostar por conseguir que las experiencias sean llamativas y positivas, es la mejor forma de ganarte al consumidor.

DATA THAT WILL SURPRISE YOU:

- E-commerce has duplicated in the last five years, becoming both a tool and a real opportunity.
- Clients want it all and want it now. This is a point that plays to our favour, as we can take advantage of any impulse buying that happens at the store: “I have it in my hand, I will buy it”.
- The subconscious side of the human brain occupies a shocking 95%, leaving the remaining 5% for the conscious part. For this reason, retail companies are obliged to create experiences that awaken the senses in order to stimulate the mind of buyers and to communicate with the subconscious side.
- It is the perfect moment to increase our interest in offering better experiences to customers, as aiming to achieve appealing and positive shopping experiences is the best way to win consumers.

La música bien elegida incrementa las ventas hasta en un 30%. Esta es la razón por la que muchos de los anuncios que vemos están acompañados de una musiquita de fondo. El sonido tiene el poder de cambiar el comportamiento de los consumidores

Well-chosen music increases sales by up to 30%. This is the reason why many of the adverts we see are accompanied by background music. Sound has the power to change consumer behaviour.

EL OÍDO

Sin lugar a dudas, es un sentido crucial a la hora de implantar nuestra tienda y esperar un buen funcionamiento de ésta. ¿Qué pasa con el sentido del oído? Existen estudios que avalan que la música empleada correctamente aumenta las ventas gracias al recuerdo y al ambiente que genera. Apostar por un ritmo suave y una música de fondo ayudará a incrementar las ventas... ¡Pruébalo!

HEARING

There is no doubt that this is a crucial sense from the moment that consumers enter our store. What happens with the sense of hearing? There is research that proves that if rightly employed, music increases sales, thanks to the memories and atmosphere it generates. It's a sure bet that a calm rhythm and background music will help to increase sales... Try it!

▶ ARTÍCULO ◀

**EL OLOR**

El olor influye y es determinante a la hora de realizar una compra. Es muy inteligente utilizarlo en nuestro beneficio para incrementar nuestras ventas. Un ejemplo de tiendas que utilizan Marketing Olfativo podrían ser: Starbucks, Intimissimi o ciertos supermercados con panadería. El olor es un recuerdo básico que se emplea a la hora de avivar un recuerdo, bien de nuestra marca, bien de alguno de nuestros productos en concreto. El olor traspasa barreras racionales de nuestros compradores haciendo cambiar su opinión ya que consigue llegar en cierto modo a la parte subconsciente, la más compleja de todas.

SMELL

Smell is an influential and determining factor when making a purchase. It is very clever to use it to our benefit to increase our sales. Examples of stores using Olfactory Marketing include: Starbucks, Intimissimi and certain supermarkets with bakeries. Smell is a basic sense that is used when trying to recall a memory, either from our brand or from any of our specific products. Smell crosses the rational barriers of our buyers, making people change their mind, as it somehow reaches our subconscious side, the most complex of all.

EL TACTO

El tacto también puede sernos de gran ayuda. Las cosas suaves nos atraen e influyen en nuestras decisiones de comprar o no.

Como conclusión, decirnos que prestar atención a estas simples notas puede ayudarnos a aumentar vuestras ventas, del mismo modo que a la probabilidad de repetición de compra de un mismo individuo. Debemos aprender a alcanzar la parte subconsciente de nuestros compradores sin atosigarles o incomodarles y tener como fin el mejorar su experiencia de compra.

THE SENSE OF TOUCH

The sense of touch can also be of great help. We feel attracted by soft things, and these seem to have an influence on our decisions about whether or not we will purchase something.

In conclusion, we want to remind you that paying attention to these simple details can help you to increase your sales, the same way that it can increase the possibility of the same client repeating purchases. We need to learn how to reach the subconsciousness of our buyers without pressuring or bothering them, with the focus on improving their purchasing experience.

Debemos mejorar y dar valor a la experiencia de compra de nuestros compradores.
We must improve and add value to our buyers' shopping experience.
